

# Maxim Biotech, Inc.

## Certificate of Analysis

**Cat. No.:** IH-60044 (CPP-6001-B)

**Biotinylated Long DNA Probe for Human CPP-32**      8   µg / tube

**Form:**    Liquid 8 µg biotin-labelled DNA in 100 µl ddH<sub>2</sub>O

**Tm:**    > **90** °C (Calculated according to the nearest neighborhood method)

**Size:**    318bp. This biotin-conjugated probe was produced by PCR primers (Maxim's product Catalog # SP-10139) under PCR\* conditions using Human cDNA and biotin-dUTPs & biotin-dATPs.

**Purity:**    The biotin-conjugated probe was purified by cartridge and showed a single band on gel.

**Storage and Stability:** Recommend to store at -20 °C, stable for one year. It is stable for one month when store at 4 °C.

**Use:**    The product is able to detect a fragment of **Human CPP-32** in in-situ hybridization when used together with Maxim's in-situ hybridization /detection kit (IHD-0050 & IHD0052) and/or in Northern hybridization.

**Sequences:** (Alignment on database: Genbank, **U13737**)

**References:** Fernandes-Alnemri, T., Litwack, G. and Alnemri, E.S. J. Biol. Chem. 269 (49), 30761-30764 (1994)

**Lot. No.:** \_\_\_\_\_

**Date of Production:** \_\_\_\_\_

**Operator:** \_\_\_\_\_

PCR\*: The Polymerase Chain Reaction (PCR) process is covered by patents owned by Hoffmann-La Roche. Use of the PCR Process requires a license. This product does not convey a license to use the PCR process.
